## Features of dispatch system

### Real-Time Tracking

We offer real-time tracking of vehicles, enabling dispatchers and passengers to track the taxi's exact location.

### Automated Dispatching

Efficient algorithms for automated dispatching ensure that the nearest available taxi is assigned to a customer's request promptly.

### Integrated Payment

Seamless integration with various payment methods, such as credit or debit cards or mobile wallets, streamlines the payment process for passengers.

### Driver Connect

In-app messaging, calls, and notifications enable communication between drivers and dispatchers.

### Reporting & Analytics

Robust reporting and analytics tools, enabling dispatchers to analyze data on trip durations, driver efficiency, and customer feedback for informed decisions.
